TELLURIDE files

Dear Robley:

As an elaboration on the attached, I am trying to collect material (ideas and documentation) for an autobiographical memoir. ~~XXXX~~ As you may imagine, historiographically reliable material is hard to come by.

Do you think the Telluride Foundation would have kept files on unsuccessful applicants of 31 years ago (1940-41)? It seems improbable, but if so it might be possible to retrieve some self-statements about career intentions, etc., that would be quite useful now.

Anything you could dig up along this line would be very much appreciated.

Sincerely,

PROFESSOR JOSHUA LEDERBERG
